

## 599 Series Ball Valve and Actuator Assemblies Selection

<b>Description</b>	<p>This Technical Bulletin aids in the selection of a ball valve and actuator assembly.</p> <ul style="list-style-type: none"> <li>Y Table 1 and Table 2 list full-port ball valve product numbers and flow coefficients.</li> <li>Y Table 3 through Table 17 identify the product numbers for all possible combinations of ball valves and compatible actuators that can be ordered as complete valve assemblies from the factory.</li> <li>Y Figure 1 and Table 18, and Figure 2 and Table 19 provide the dimensions for the valve/actuator assembly and the required service envelope.</li> </ul> <p>It is recommended that 2-position applications use a full-port ball valve without a flow characterizer. For modulating applications, it is recommended that the ball valve include a flow characterizer.</p>
<b>Example: Selecting a 2-Way Ball Valve and Actuator for 2-Position Control</b>	<ol style="list-style-type: none"> <li>1. Job specifications require a 2-position, normally-open, spring return ball valve in a 1/2-inch (15 mm) supply line size.</li> <li>2. See Table 5 to locate a full-port valve with a 1/2 inch (15 mm) valve size that matches the 1/2-inch (15 mm) supply line size. Select valve product number 599-10307.</li> <li>3. In Table 5, locate the column for a 2-position normally-open fail safe actuator.</li> <li>4. In Table 5, locate the row corresponding to the 599-10307 a valve product number. The row/column intersection shows that the valve and actuator assembly product number is 171H-10307.</li> </ol>
<b>Example: Selecting a 2-Way Ball Valve and Actuator for Modulating Control</b>	<ol style="list-style-type: none"> <li>1. Job specifications require a 40 Cv valve with stainless steel ball and stem, and 0 to 10 Vdc, fail-in-place actuator for a 1-1/4 inch (30 mm) supply line size.</li> <li>2. In Table 9, locate the actuator column for a 0 to 10 Vdc actuator. Locate the row corresponding to the 599-10319S valve which has a 40 Cv. The row/column intersection shows that the valve and actuator assembly product number is 171C-10319S.</li> </ol>

Use Tables 1 and 2 to determine the effective Cv when using a full-port ball valve where the ball size and the line size may differ.
